

Weapons Training Classroom Layout

NOTES:

No need for tables, students will be up and down constantly to practice.

Place 'No Live Ammunition' sign at entrance.

Prior to class start, instructor will conduct the preliminary activities laid out in the lesson plan.

If students bring their own weapons, have them lay them under their chairs with muzzles pointing forward prior to start for instructor Safety Check.

Primary instructor uses entire frontage of chairs to demonstrate, sometimes repeating demonstration.

Assistant instructors 'float' around classroom, including behind the students.

When conducting practice, students can face about if instructor requires (pointing muzzles). Instructor will designate the safe direction(s) at start.
